

The 50 MHz DX Bulletin

Volume 19, Issue 2

February 2008

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$24 U.S. first class mail, \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Payments may be made to k6fv through PayPal. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA. My Internet address is victor.frank@sri.com. My web site is <http://www.qsl.net/k6fv>. The bulletin may be freely quoted, provided that credit is given.

Fred Fish Memorial Award

Announced in the February 8 edition of the *ARRL Letter* was the approval by ARRL board of directors of an award that will be granted to any amateur who duplicates the late W5FF's achievement of working and confirming all 488 grid squares in the contiguous United States on 6 meters. ARRL Contest Manager Sean Kutzko, KX9X, who will oversee this award said, "We hope the new award will increase 6 meter activity throughout the US and the world. We also hope it will lead to the activation of rare grid squares in the US by encouraging the native ham population of a rare grid square to give 6 meters a try, as well as through 'Grid DXpeditions.'"

February 2008 DX Reports

The following reports of 50 MHz DX propagation are courtesy of K6QXY and postings on the Internet. G4UPS and JA1VOK had no 6m DX to report in February. Apologies to any sources I may have inadvertently neglected.

Listings obtained from the OH2AQ reflector may include distances in kilometers, determined preferentially from the grids in the post, and otherwise from one or both of the prefixes of the calls. Note that the latter results in VERY rough approximations to the distances, especially for large countries and call areas.

Listings from the vk logger already have six digit grids and distances in kilometers. These have usually been shortened to fit in the available space.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2008. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, D=Telemetry Data, J=Digital, typically JT6M or JT65A for EME, R=RTTY or repeater, S=SSB, W=mode not mentioned (or both CW & SSB), H=heard only. BSc = backscatter, Sc = scatter, MS = meteor scatter, TR = tropo

DX Operations

Most of the listings in this column came from SMIRK.

Afghanistan, T61AA: VK1UN, Ross, plans to get on 2m and 6m EME from grid MM57. He notes that the old YA prefix is no longer in use. Ross will be in Afghanistan for up to two years and is equipped with a Tokyo Hi-Power amplifier.

Reunion Island, FR8EZ: F8CHM, Jean Mary, will be active on HF & 6m from AF-016 until March 21.

Jan Mayen, JX9JKA: LA9JKA, Svein, will be "very active" on SSB and digital modes on 160-6m from EU-022 between March 27 and October 8.

Wet Squares, UT1FG/MM: Yuri, Master of the MV "GreenWing" is QRV on 6m until the end of July. Presently he is exiting the Panama canal on his way to Algiers, 7X5, (15-20 March). His radio is always switched on to 50.1110.

Swan Islands, Honduras, HQ8R: plans to operate five stations from EK87 on 160-2m EME between March 15 and 23.

Compiled by Martin Harrison G3USF for the
Propagation Studies Committee of the Radio Society of
Great Britain. Corrections and updates to
M.Harrison@pol.keele.ac.uk Copyright 1997-2008 but
may be freely reproduced if acknowledgement is made to
G3USF. I have excluded a few part-time, experimental,
seasonal, and unknown beacons from G3USF's list and
have added a few VK/ZL/Asian TV video frequencies.

End Notes

We had (to my memory) more Sporadic-E propagation during February than normal. Too bad more 6m stations weren't on the air to take advantage of this. The VP6DX dxpedition stirred up a lot of interest. My K6FV beacon was pointed that way for the duration. I have only two verified heard reports of VP6DX on 6m, but dozens of 'reports' showing up on the reflectors that were just queries or relaying information. Please! "Magic Band" or "VHF Skeds" is the place for these, not "Prop Logger".
